A modern, simple, and unencumbered elegance of place and space at Healdsburg Modern Cottages. Healdsburg, California. www.healdsburgmoderncottages.com

Meet Eileen, Ray, Charles, and George. What's with the names? Healdsburg Modern Cottages are furnished with mid-20th century modern furniture designers, Eileen Gray, Ray and Charles Eames, and George Nelson to name a few.

Eileen

Gray is the last name and the color of this 500 square foot cottage. The cottage is modern inside and out, a nonconformist like Eileen. The vaulted ceiling bedroom includes a work desk with Bertoia chair and a luxurious adjoining bath with spa shower. The separate sitting area is stylishly furnished. Eileen Gray created unique furniture "suited to our existence." Make note: the cocktail table next to the sofa is Eileen's signature furniture piece.

George

Named after George Nelson who possessed one of the most inventive minds of the 20th century. Among his most famous designs are the Nelson bench, a series of bold wall clocks and a series of bubble lamps, all of which are represented in this cottage. George at 600 square feet has a stunning vaulted ceiling living space. It is furnished with a small sofa by David Mocarski, a convertible sofa by Tacchini, two Ero chairs by Phillippe Starck and a desk with a Bertoia chair. Open the front door to enjoy the original 1930's front porch. In the separate bedroom you will sleep like a baby in the Laggero king size bed by Christoph Burtscher and Patrizia Bertoliniand. Goerge features a deck large enough to dine on George as well as an oversized spa bath.

Charles and Ray

Charles and Ray, Eames, that is. Named after the famous married designers whose unique synergy led to a whole new look in furniture. Lean and modern. Sleek sophisticated and simple. Charles and Ray are attached but are totally separate cottages.

Ray, at 1000 square feet is our largest cottage. The living room is tastefully furnished with a pair of Barcelona chairs by Ludwig Mies van Rohe, a sliding sofa that converts to a bed designed by Pietro Arosio, a Laccio Table by Marcel Breuer, a desk and a wardrobe. In the small kitchen enjoy eating at the table and chairs designed by Jesus Gasca and accessories by Allessi. The bedroom with closet and king size bed is ultimate comfort combined with a functional modern aesthetic. We love the Landare dresser by Abad Diseno Design Group, the Bertoia chair and the Nelson bench. The oversized modern bathroom with shower also has a spa tub, ahh.

Charles, at 400 square feet is a luxurious bedroom suite including a large bathroom with spa shower. At the foot of the bed is a Nelson bench and the work area includes a Bertoia chair! The cozy seating area sports two red Eames molded plywood chairs and an Eames coffee table. The designers refer to these pieces as "serious fun," that's why we put them in front of the fireplace! Rumor has it that Charles includes a red lipped neon sculpture (it's true).
